

Looking for a Way to Save Money While Increasing Convenience for Your Members?

It's Easy – With the NCR 3800 Shared Branch Kiosk Powered by Ensenta!

Credit Unions who are part of the CU Service Centers™ have a new advantage with the NCR 3800. This self-service kiosk gives your members easy access to a full range of your services and allows you to inexpensively service Shared Branch guest members, your members and ATM transactions.

Add up the Savings – And the Pendulum Service Advantages!

The NCR 3800 Shared Branch Kiosk offers a number of advantages over traditional ATM options, including

- Up to a 50% reduction in deposit processing costs of image deposits vs. envelope based ATM deposits
- Elimination of costly daily check sweeps at the branch and their traditional envelope-based ATMs
- Reduction of float
- Potential elimination of significant upfront costs to purchase an Image Consolidation Server.

Pendulum offers your Credit Union a number of unique advantages too! We've already fulfilled and installed more Ensenta kiosk orders than anyone in the industry. Pendulum is also the only national, independent single-source provider of these support services:

- First and Second Line Maintenance
- Cash Replenishment
- Cash & Check Deposit Pick-up

Once you consider all the advantages – it's easy to see why the NCR 3800 from Pendulum is an innovative and cost-effective alternative for Credit Unions.

Contact your Pendulum Sales Representative for more information about the NCR 3800 Shared Branch Kiosk.

NCR Certified Servicing Agent for the 3800 Kiosk

NCR 3800 SHARED BRANCH KIOSK BENEFITS FOR CREDIT UNIONS

- **Informative**
All banking relationships displayed/updated
- **Verifiable**
On-screen postings and updates; check copies displayed on receipts
- **Simple and Accurate**
No-envelope deposits, no paperwork

Perform the following Transactions on the NCR 3800

Full array of transactions can be performed by "On-Us" CU members and guest members from other CU's that are part of this Shared Branch Network which include:

- Cash withdrawals
- Deposits of checks and/or cash
- Loan payments by cash or checks
- Loan advances in cash or by official check
- Funds transfers
- Balance inquiry, and
- Recent account history detail.

These shared branch transactions can be consummated as long as the member has their CU account number and a magnetic stripe card that can confirm their identity.

Also, any ATM Debit card holder from any Financial Institution can perform standard ATM transactions including:

- Cash withdrawal,
- Credit card advances,
- Funds transfers, and
- Balance inquiry services.

Location Installation Options

The NCR 3800 kiosk is an interior standalone front load solution that can be installed in a Credit Union manned branch, retail location, or CU sponsored Employer workplace location.

Late in 2008 or the beginning of 2009 the Shared Branch kiosk application should be expanded into other lines of NCR ATMs to allow for TTW walkup and drive-up island deployment.
