

## Teller Cash Dispensers and Recyclers

### *An Innovative Approach to Streamline Cash Transactions*

Building on over 25 years of providing ATM product and services to financial institutions, Pendulum has expanded to offer cash dispensing and cash recycling technology. Cash dispensers and recyclers allow financial institution branches to handle cash in a new and simpler way, increasing teller efficiency and streamlining the branch's cash management process.

### *A Secure and Accessible Solution*

Over half of all branch transactions involve cash, and most tellers are required to handle these in the most repetitive, inefficient way – manually counting and recounting cash all day long with their head down.

By transitioning to cash management technology in the branch, customers, tellers and the branch all benefit. It's a more secure alternative, too. All cash is held in a secure safe, reducing exposed cash in teller drawers, but still providing accessibility for customer transactions.

With Cash Dispensers and Recyclers your staff avoids mistakes, stays in balance, and reduces the time needed for:

- opening cash drawers,
- all cash out transactions,
- all cash deposits,
- vault buys (drawer replenishments),
- vault sells (selling cash back to the vault),
- closing drawers at the end of each day.

### *Maximize Time with Your Customers*

Cash Dispensers and Recyclers take time spent counting cash for customers and turn it into time spent listening and interacting with them. Besides improving the customers' perception of better service, talking with each customer can also lead to finding out what other services they would like to get from your financial institution. This in turn increases the value of the relationship with your customers.

Now Available  
from Pendulum

Dispenses cash fast  
and accurately

Designed to fit in a variety  
of branch configurations

Easy to access  
and service

**Arca2000S  
Cash Dispenser**

Maximum Number Cassettes	4
Capacity	10,000 Notes
Height x Width x Depth	30.0 x 18.0 x 23.5
RS-232 Interface	yes
TCP/IP Interface	no

Compact with a big capacity

**Arca2600  
Cash Dispenser**

Maximum Number Cassettes	6
Capacity	18,000 Notes
Height x Width x Depth	38.25 x 18.0 x 29.5
RS-232 Interface	yes
TCP/IP Interface	yes

Combines compact size and quiet operation

**Arca7000  
Cash Recycler**

Maximum Number Cassettes	8
Capacity	3,000 Notes
Height x Width x Depth	30.5 x 17.3 x 30.6
RS-232 Interface	yes
TCP/IP Interface	yes

Powerful performance in a small package

**Arca8000  
Cash Recycler**

Maximum Number Cassettes	8
Capacity	4,200 Notes
Height x Width x Depth	39.6 x 24.8 x 20.0
RS-232 Interface	yes
TCP/IP Interface	yes

Unsurpassed versatility

**Arca8000D  
Cash Recycler  
with Bulk Deposit**

Maximum Number Cassettes	10
Capacity	12,200 Notes
Height x Width x Depth	39.6 x 39.0 x 20.0
RS-232 Interface	yes
TCP/IP Interface	yes

The most unique cash handling device in the world
